

Where Missing Plane Is Hunted

SEARCH AREA for Cessna Crane, missing since Saturday with five men aboard, covers broad area north of Whitecourt and Athabasca river. Search is being widened after concentrating on strip 40 miles wide along direct air route from Grande Prairie, covering

rocky Swan Hills and wild muskwy country. Sweeps were made of railway and highway leading to Smith, north of Edmonton. Search today will also be made near Fort St. John, 100 miles northwest of Grande Prairie in opposite direction to plane's intended course.

'Old Oxydol Box' Playing Key Role In Air Search

By BARRY BROADFOOT

"Old Oxydol Box," a work-wear but pin-trim Dakota, holds down a key role in the grim search for five hunters down in their Cessna Crane somewhere in the ravine criss-crossed, lake-pitted terrain of northern Alberta.

Affectionately known to her crew as "Old Oxydol Box" because of her yellow background with heavy black bars like the soap carton, she carries the three-man paramedic team which may mean life or death to the downed aviator.

Monday, with 12 other ships, she took off from Edmonton for a series of glaucous sweeps across the rugged terrain—already while with the first permanent sweep.

Markets In Brief

MONTREAL, Oct. 17.—(CP)—

Mild profit-taking encountered a

rising security list near the first

hour on the Montreal Stock

exchange and early market today.

Many early gains were either

pared or turned into fractional

losses. Plus and minus signs were

about evenly distributed across the

industrial board. Trading continued

active.

NEW YORK, Oct. 17.—(AP)—

Specialized buying interest kept

the stock market pushing ahead to-

day.

It was the first rise since last

Wednesday.

Gains ranged from a few cents to

more than \$1 a share. Particularly

favoured were automobile, steel

and rubber issues, plus an as-

sortment of industrial stocks.

TORONTO, Oct. 17.—(CP)—In-

dustrials rushed ahead with frac-

tional gains on the Toronto Stock

Exchange today for the second

straight session since Saturday's

slight decline.

The gain was strong enough to

boost the industrial index to a new

high since it was compiled in 1929.

Papers, utilities and banks led

the advance. Volume was quite

heavy with 2,500,000 shares traded.

Silver Star Won

U.S. BIRTH ARMY HEAD-

QUARTERS, Korea, Oct. 17.—(AP)—

Cpl. Robert Painter, was awarded

the Silver Star for shooting three

Korean Reds with his left hand

after being wounded in his right.

BEULAH' SUES

FOR DIVORCE

LOS ANGELES, Oct. 17.—(CP)—

Movie and radio

actress Hattie McDaniel sued

yesterday to divorce Larry C.

Williams, interior decorator

she married in 1940. The

Negro character actress

charged that Williams was

crucial to her. She asks restitu-

tion of her maiden name.

Another Firm

Boosts Price

Of Newsprint

TORONTO, Oct. 17.—(CP)—An

increase of \$10 a ton in the price

of standard newsprint, effective

Nov. 1, was announced today by

the Abitibi Power and Paper Com-

pany Limited.

Abitibi was the second company

to raise newsprint prices in four

days. Powell River Co. Ltd., an-

nounced Friday that effective

yesterday it would charge \$10 a ton,

plus more than it had been asking.

It gave increased production cos-

ts as reason for the boost.

IN PUBS, STORES

Beers to Come Higher

Starting October 18

A. J. Mason, chairman of the

Alberta Liquor Control Board

today announced increases in the

price of beer, effective Oct. 18.

Price of J. & W. beer will re-

main the same at 10c, but

the 12-pack is reduced from

8 to 7 1/2 cents.

Bottled beer sold in licensed

premises will cost 36 cents a pint

instead of 25 cents.

Beer purchased by the 12-pint

case from Liquor Control Board

should rise from \$2.10 to \$2.35.

Hope Fades That Plane Clue Found

RCAP Planes Show North Fires Were Those of 2nd Party

Hopes that the pilot and four passengers of the Cessna Crane aircraft missing since Saturday were responsible for fires seen by searching planes in the Athabasca river region last night, were abandoned this afternoon.

An RCMP Explorer, flown by Sgt. L. M. H. J. Dalpierre, returned to air search and rescue headquarters here today with the report that a check on the vicinity of fires he and Sgt. Bert Macmillan saw in a swamp last night were apparently those of a party of traders or hunters.

Dalpierre said he saw a party on the banks of Athabasca River with two boats and in no trouble. The report brought to an end hopes raised when he and Macmillan reported they thought the fires in the Athabasca might have been signal fires.

Almost complete abandonment of the air search came today as a result of bad weather conditions. Three planes which took off at 1 p.m. were forced to return to base, as were two which got off the ground in the morning.

At last report only one plane remained in the air. The planes had been sent out by searchmaster Sgt. L. C. E. Harris in hopes they would be able to find clear areas along the route from Grande Prairie to Edmonton, the route the plane was to have followed.

Yesterday 12 planes scoured a wide area north and northwest of Edmonton extending from Whitecourt to Smith. Search planes last night reported seeing two fires in the bush near Athabasca and both pilots reported what might have been signal lights from the scenes of the crash.

Bad weather today prevented further investigation of the reports. OFFER REWARD A \$500 reward for information leading to discovery of the plane was announced today by Air Dory, Garypie, and Louis Morison, Vancouver, brother and father respectively of two of the missing men.

"If the search continues to be unsuccessful, we expect to be able to increase the reward to \$1,000," he said. Air Dory and his sister-in-law today left for the Athabasca to interview two farmers in the area who reported seeing a plane circling in the area about 9 p.m. Saturday night.

MAY BE DOWN THERE It is likely the plane may be down in this area, an air force spokesman said.

SURE THEY'RE ALIVE It was suggested we keep part of the reduction as the spread between wholesale and retail in Edmonton is a half-cent less than in Calgary," he said. "We decided that in view of changing conditions in the oil industry, we would pass the whole reduction on to the consumer."

Author Ill BALTIMORE, Oct. 17.—(AP)—L. M. Mucken, author, "Crime and the Newspaper Man," is critically ill in Johns Hopkins Hospital, it was learned last night. The 70-year-old "age of Baltimore" suffered a severe heart attack last Thursday.

Late News Flashes

WORKERS RETURN

SHERBROOKE, Que., Oct. 17.—(CP)—Under police protection, 90 of 133 Glasco Knitting Mills employees on strike since last May 13 returned to work today after management satisfied it was ready to negotiate a new contract.

SUGGESTION REJECTED

LONDON, Oct. 17.—(CP)—Foreign Secretary Ernest Bevin today rejected a suggestion that Britain should take the initiative in arranging a meeting among leaders of the Big Three nations. The suggestion was made in the Commons by Norman Bower, a Conservative member.

SEAMAN KILLED

WASHINGTON, Oct. 17.—(UPI)—One seaman has been killed and 13 others are missing following the sinking of two American minesweepers off the coast of Korea. The American Navy says the ships struck mines five days ago and sank.

DIPLOMATS CONFER

LAKE SUCCESS, Oct. 17.—(UPI)—The top two American diplomats have conferred with John Foster Dulles, the Republican adviser to the U.S. State Department. Dulles, Russian Foreign Minister Vishinsky and Soviet UN delegate Malik met this morning at Lake Success.

TEAM COULDED

DETROIT, Oct. 17.—(UPI)—Manager Jack Adams has slapped a midnight curfew on his champion Detroit Red Wings today and set a \$500 fine for any training intrusions. Apparently pleased at the somewhat disappointing start made by the Wings in their first two games, Adams read the riot act to his squad.

DRUG FOR ULCERS

MONTREAL, Oct. 17.—(CP)—Dr. J. W. Halpern told the annual clinical convention of the Montreal Medical Chirurgical Society today that his research results in treatment of peptic ulcers have been obtained through the drug known as Banthine, recently introduced into Canada.

Gasoline

Price Is Cut

Edmonton service station op-

erators will start selling gasoline

seventeen-cents of a cent cheaper

today.

The Automotive Trades Associa-

tion recommended that dealers

post new prices of 35.3 and 27.3

cents per gallon reflecting the

wholesale drop announced by oil

companies yesterday.

ATA Secretary Frank Bre-

today predicted that the new price

would be "city-wide," following an

ATA directors' meeting yesterday.

"It was suggested we keep part

of the reduction as the spread be-

tween wholesale and retail in Ed-

monton is a half-cent less than in

Calgary," he said. "We decided

that in view of changing conditions

in the oil industry, we would pass

the whole reduction on to the con-

sumer."

Author Ill

BALTIMORE, Oct. 17.—(AP)—L.

M. Mucken, author, "Crime and the

Newspaper Man," is critically ill

in Johns Hopkins Hospital, it was

learned last night. The 70-year-old

"age of Baltimore" suffered a

severe heart attack last Thursday.

Drive To City's Outer Defences

TOKYO, Oct. 18.—(Wednesday)—(CP)—The battle for Pyongyang began at dawn today when British and South Korean vanguards swept into the mist-shrouded outer defences of the Communist capital, front line dispatches said.

It was not known how strongly the northerners were holding positions to the rear of their scattered front lines. It has been reported frequently during the last week that they have withdrawn every available veteran into the beleaguered city.

By Rehnman Morin
TOKYO, Oct. 17.—(AP)—American and South Korean columns smashed tonight through shattered Communist remnants within 12 miles of the Communist Korean capital, Pyongyang.

Just over a month after the allied tide turned on the landing at Inchon, the war was running swiftly toward victory for the United Nations.

The U.S. 1st Cavalry and the Republic of Korea (ROK) 1st divisions were racing each other for the Red capital. An official ROK spokesman said he believed the republican troops would reach the Communist capital tomorrow.

AP correspondent Don Whitehead, with the Americans, reports the capital is certain to come with its riches of allied big guns in 24 hours or less.

Military circles in Tokyo say the fall of Pyongyang almost certainly will end the Korean War except for mop-up operations against guerrilla forces. Behind the Americans, British and Australian Commonwealth Brigade troops sped 31 miles to Sariwon and captured that highway city.

AP correspondent Hal Hyde reports the Americans might reach Pyongyang in two days.

ROK officers had trouble restraining the weary but eager South Korean troops from running along the road to Pyongyang. Many of the Y had not stopped to rest for two days.

The South Koreans Tuesday drove 20 miles north of Pyongyang, only 20 miles southeast of Pyongyang. They smashed through the town another two miles, after taking up with another South Korean column.

In air strike the gain was 26 miles. But it was much farther actually along the winding mountain road.

The U.S. 1st Cavalry Division smashed nearly 30 miles from its kickoff point at Sonah. It bypassed Sariwon, 20 miles south of Pyongyang, and drove over a secondary road into Hwangi, only 21 miles south of the Red capital.

The U.S. Cavalry rammed up a secondary road leading Sariwon, the key city 25 miles south of Pyongyang, for British and Australian troops to mop-up. The Commonwealth troops fought their way into the city after a 24-mile dash.

King, who left Toronto two years ago to fight in the United States, was said to be sore because he believed a local referee played favorites at Wilkes Barre some weeks ago. At that time the Toronto Negro lost to Lloyd on a decision.

Two Die In Jet Crash
TORONTO, Ont., Oct. 17.—(UPI)—Two Canadian Air Force Vampires jet fighters collided today near Dundas, England. Both pilots were killed instantly.

King, who left Toronto two years ago to fight in the United States, was said to be sore because he believed a local referee played favorites at Wilkes Barre some weeks ago. At that time the Toronto Negro lost to Lloyd on a decision.

SASKATOON, Oct. 17.—(CP)—Doug Grimston of New Westminster, B.C., president of the Canadian Amateur Hockey Association, has lifted the suspension of Bill Heintz and Larry Zeidel, Saskatoon Quakers defencemen, until the result of their appeal to the CAHA is made known.

M. Cantlon, president of the Quakers of the Western Canadian Senior Hockey League, said today he received a wire from Grimston to this effect. The decision legalizes appearance of the two players

Hooke Sees Production On Increase

Value of Alberta's industrial production will be 11 per cent greater this year than last, Hon. A. J. Hooke, minister of economic affairs, said Monday.

He told the Kiwanis Club that total value of goods manufactured in this province is expected to reach \$500,000,000. This will be an increase of \$50,000,000 over the 1949 figure.

Mr. Hooke said 75 new industries were established in Alberta during the past two years and 1950 would likely see a record number of industries start in the province.

Thirty members of the Executive Life agency force, staff and guests last night commemorated the company's diamond jubilee at a banquet in the Macdonald hotel.

The dinner also marked the completion of the largest three-day period of new business production in the company's sixty years of operation.

Similar celebrations took place across Canada yesterday as other company branches commemorated the anniversary.

Canadian National Institute for the Blind rural campaign yesterday marked its "biggest day" when slightly over \$300 in contributions were received.

This brings the total received to date to \$1,812. Objective of the campaign, which began Oct. 1 and ends Oct. 31, is \$20,000.

Opening burials of the civic election campaign will be held Thursday night at South Edmonton Business Men's Association annual civic election dinner.

Rated the liveliest meeting of every campaign, the association will stage this year's session at 6:30 p.m. in Knox United church, 104 street and 8th avenue.

For many years the South Side group has retained the honor of holding the inaugural meeting of each campaign.

All aldermanic, public school board and separate school board candidates have been invited to attend and express their views.

A young woman who smashed a bottle of wine on a city street was police hauled the car in which she was riding today was fined \$25 by Magistrate S. C. Ma in police court.

Lena Mah, 104-48 - 97 street, was also fined \$20 for intoxication.

Police said the incident occurred Monday night when she hurled a bottle from the car and it smashed on the street.

Another new police case brought the provincial total for the season to 113 today.

Latest persons to be affected in a four-year-old Medicine Hat strike.

Hon. David A. Cree, minister of agriculture for Alberta, will represent this province at the Brandon sale of British livestock on Saturday.

Beef and dairy cattle, hogs and sheep are being sold by British breeders at the Brandon auction, and proceeds will go to victims of the Winnipeg floods.

North West Brewing Company and Ross Steinkamp today gave an city building permit total a \$50,000 boost.

The brewing company was granted a \$50,000 permit for addition to its stock cellar.

Mr. Steinkamp was given a \$50,000 permit for construction of a six-day.

SAD COMMENTARY on juvenile tastes in literature was made by C. D. McLachlin, manager of American News Company here, as Edmonton Home and School Association staff investigation of juvenile reading material on McLachlin: "Dickens and Sir Walter Scott just don't sell." Bulletin reporter, checking newstands, found lurid illustrations of undraped women, sadistic killers, still being displayed.

Big Building Bee Benefits Burned-Out Birkland Family

A great bee is on to rebuild the house of Alf Birkland, 10506-65 avenue, ruined by lightning and fire three weeks ago.

Money and materials are needed to finish the job, and donations are sought to help the homeless family.

There was no insurance on the house. Birkland recovered from a major case of tuberculosis only about two years ago.

Shortly after lightning ripped through the Birkland home, his neighbors and fellow employees at the University Hospital took it upon themselves to help.

For many years the South Side group has retained the honor of holding the inaugural meeting of each campaign.

All aldermanic, public school board and separate school board candidates have been invited to attend and express their views.

A young woman who smashed a bottle of wine on a city street was police hauled the car in which she was riding today was fined \$25 by Magistrate S. C. Ma in police court.

Lena Mah, 104-48 - 97 street, was also fined \$20 for intoxication.

Police said the incident occurred Monday night when she hurled a bottle from the car and it smashed on the street.

Another new police case brought the provincial total for the season to 113 today.

Pioneer Woman, Mrs. E. E. Smith Dies In City

Mrs. Evelyn E. Smith, 9558-100A avenue, resident of Edmonton for 60 years, died at her home Sunday.

Born in Bruce County, Ont., Mrs. Smith, 78, moved to Edmonton in 1890. She was an active member of the Women's Auxiliary to the Brotherhood of Railway Trainmen for over 25 years.

Survivors include a son, T. A. Smith, McEwen, Alta.; two daughters, Mrs. William Walker, of Edmonton and Mrs. Arthur Murray, of White Rock, B.C.; one stepson, Cecil R. Smith, Kelowna, B.C.; and a daughter, Mrs. H. Westrup, of Seattle, Wash.

Funeral services will be held Wednesday at 2 p.m. in Hainwood and Son Funeral Chapel, Rev. Tom Jones with officiate. Burial will be in Mount Pleasant Cemetery.

U of Alberta Radio Programs Back On Air

Eleven radio programs produced by the University of Alberta are back on CKUA this week.

Monday's programs heard weekly at 6:45 p.m. and 8:45 p.m. are "The Headlines," Wednesday's presentations are "Your Home and Yours" at 8:15 p.m., "The Wonder Box" at 5:30 p.m., and a family education series at 8:15 p.m.

Friday, "Bunko at Random" is heard at 6:45 p.m. A special program of readings from Shakespeare by Laurence Olivier is also scheduled Friday, from 7 to 8 p.m.

Snow Delays Crop Work

Last night's snowfall has further hampered late harvesting operations.

A. M. Wilson, field crop commissioner for the province said today that little progress towards completing harvest has been made in past three weeks as a result of damp weather.

Most harvest is completed in southern Alberta and in Peace River district but more than half of crop is still unharvested in central Alberta.

In Wainwright area, about 30 per cent of crop is still standing. In other areas, a large percentage of crop is still in sheath and will be extremely difficult to pick up, even when dry.

Green feed in some areas of central Alberta has not yet been stacked and in some cases is still uncut.

Man Says Ghost Advised Suicide

PENANG, Malaysia, Oct. 17.—(Reuters).—Charged with attempted suicide, a 40-year-old Chinese told the court here that "a tall black ghost told me to cut my throat and I did." He added he did not feel any pain and was unaware he had been "telling and groaning."

BLOOMINGTON, Ind. — (UPI) — Clyde Jones, an only son, was ordered to pay his 80-year-old father, Homer V. Jones, \$7.50 a week when the father filed suit for non-support against his son.

ed for this Friday and on Nov. 3. The Alberta Farm and Home Forum is heard Monday, Wednesday and Friday at 8:15 p.m. and the Music Hour Monday through Friday, from 7 to 8 p.m.

Suit Cost Seen Rising In Spring

Male Fashion Expert Says \$55 Suits Will Cost \$75

Men's suits now selling at \$55 will cost \$75 next spring as wool prices soar to a new all-time high.

This was predicted here today by Frank Ross, managing editor of the Canadian Reporter, Montreal, a magazine devoted to men's clothing and fashions.

Mr. Ross is travelling across the Dominion gathering material for his magazine and explaining a program to make Canadian makers more clothes conscious launched by the Men's Fashion Council of Canada.

The council operates as a clearing-house on the clothing trade business between manufacturers and retailers.

PRICE CONSCIOUS Observing that he finds Canadian men definitely price-conscious, Mr. Ross said: "There is a definite upswing in the clothing prices with next spring's woolen suits up from the manufacturer from 1949 to 12 percent. It is impossible to say what prices of clothing next year will be."

Mr. Ross explained that the reason for rising prices is doubling of the price of raw wool on world markets.

He predicted that increased cost of wool will eventually result in more synthetic clothing made from nylon and acetate rayon.

The mixture is 40 per cent wool and 60 per cent rayon blend. He said shirts, ties and undersuits from this material.

Canadiana. Mr. Ross said, requiring educating in choice of dress.

YMCA Plans Big Addition

To cope with the increasing population in Edmonton, the YMCA board of directors have authorized immediate start of an estimated \$200,000 addition to the present YMCA building.

Authorization was made at a recent meeting of YMCA board of directors.

The building, to be located immediately in front of YMCA building, will measure 45 by 100 feet, four stories in height.

Excavation work is planned for an early date," said Clarke Reedy, general secretary.

GENERAL CONTRACT Bennett and White Construction Co. has been awarded the general contract at a tendered price of \$203,982.

Mechanical, plumbing, heating and ventilation contracts will be awarded at today's board meeting.

When the present YMCA building was constructed in 1907, Edmonton's population was only 40,000. Today it is 148,000.

Cooked food or meat will keep longer at 40 degrees than if it is left uncooked. The heat of cooking kills many of the bacteria and enzymes which cause it to spoil.

Opportunities Abound For Engineers

A host of opportunities await young Canadian engineers, James A. Vance, M.E.I.C., of Woodward, Ont. president of the Engineering Institute of Canada, told the Edmonton branch Monday evening.

"There never was a time in Canada when there was a greater need or opportunity for graduate engineers in existing business or in the creation of new ones," the Woodward, Ontario, engineer said.

He outlined a wide scope of activity for men of vigor and initiative in an expanding economy: water supply systems for farms and small villages, design and construction of rural telephone lines, facilities for servicing and improving mechanical farm equipment and electrical equipment, water conservation, the many branches of the construction industry.

BLIND TO CHANCES
"If Canada is to maintain her high level of economy, she must continue to develop her known natural resources and push back the frontier to the yet undiscovered wealth," Mr. Vance said.

Loss of Canadian youth to the United States has been due, not so much to lack of opportunity in Canada, as to ignorance, he said. Young people were unable to see opportunity here because they were not properly informed or encouraged to appreciate Canada's greatness.

The president urged engineers to extend their influences in national affairs and be "patriotic in Canadian thought and enterprise." The institute represented "the largest, most broadly dispersed and diversified selection of men in the country."

Mr. Vance warned against proposed worldwide engineering societies which might be dominated by totalitarian countries. A conference of commonwealth societies meets every four years, and a Pan-American conference is being formed. He advocated Canadian membership in the western hemisphere organization.

H. E. Wright, chairman, introduced Dick Hertz, Montreal, a vice-president; H. M. Macpherson, Vancouver, vice-president of the western zone; and C. F. Lindsay, Montreal.

The speaker was introduced by Sam Coullie, vice-president, Imperial Pipe Line Company, and thanked by T. W. Duhon, past chairman of the Edmonton branch.

Truman Flight Gets Comment
WASHINGTON, Oct. 17.—(AP)—Harold Stassen said last night the American people are entitled to know from President Truman whether his 14,000-mile flight to confer with Gen. MacArthur means he has decided to accept MacArthur's advice on Far Pacific problems. If not, Stassen said, then the public would be justified in regarding it as "a suicidal political escapade" designed to bolster Democratic candidates in the Nov. 7 elections.

Postmaster Delegate
DRUMHELLER, Oct. 17.—(AP)—Fred Biachuk of this city will be one of a dozen postmasters from various parts of the dominion attending a special course in Ottawa for the next three to four weeks.

Candidates for the course were selected by officials on a merit basis. Western provinces are each represented by one candidate.

SIGNAL CORPS photographer Sgt. Ray Turnbull, of Miami, Fla., now serving in South Korea, demonstrates how he uses his bayonet as a unipod to support his camera. Bayonet is also handy for close-in fighting.

Famed Quints Leave For New York Visit

CORBEIL, Ont., Oct. 17.—(BUP)—The Dionne quintuplets take off on a trip to New York today with papa's permission to use lipstick for the first time in public.

The famous 16-year-old brunettes wheeled the concession to take commutes with them from conservative Olivia Dionne with last-minute arguments that they were really "grown up."

They also will have evening-length blue dresses and their first high-heeled shoes in their suitcases when they board the train tonight for 10 classmates for the 725-mile trip to the big city.

The quintuplets were due to pass through Montreal at 7 a.m. EST tomorrow where their private car, containing the entire party, will be switched to the New York train.

MANY CELEBRITIES
The girls, 11th grade students at Villa Notre Dame high school in Callander, Ont., will wear new school uniforms on the train, receiving their adult finery for the Alfred E. Smith memorial banquet at the Waldorf-Astoria hotel on Thursday. They will entertain the guests with French and English songs.

They are to be chaperoned by two teachers and a nurse who will shepherd them to a convent on their arrival in New York tomorrow night. Although they will be cared for by nuns, their official host is Francis Cardinal Spellman.

DATES FORECAST
On Friday the quintuplets will attend a special mass in St. Patrick's cathedral and do some sightseeing, including a visit to Broadway. They'll go shopping Saturday, buying whatever suits their individual tastes because they dress alike only at public functions.

The quintuplets will leave behind the glamour of New York on Sunday to return to their quiet school and family in Callander. But friends are warning that it won't be long until they wheedle another concession out of papa—dates.

UN Face Turned To War; Not Peace

NEW DELHI, Oct. 17.—(AP)—Prime Minister Nehru, in a major statement of India's policy yesterday opposed the western plan for United Nations military forces, on the ground that it would turn the UN toward war rather than peace. He also opposed American policy toward Communist China.

Nehru said the idea of UN armed forces to combat aggression, substance of a seven-country proposal now being debated, was "a wrong approach."

It seemed like converting the United Nations into a larger edition of the Atlantic Pact and making it a war organization more than one devoted to international peace," the prime minister said.

OTHER POINTS
Nehru also blamed much of the war of Asia today upon the fact that Communist China has been kept out of the United Nations. Calling this an "astounding phenomenon," he added that any foreign policy based upon non-recognition of the "New China" is "wrong and leads to unreal and imaginary results."

2. Declared that India feels the problem of combating Communist expansion fundamentally "is a war of the United Nations. Calling this an 'astounding phenomenon,' he added that any foreign policy based upon non-recognition of the 'New China' is 'wrong and leads to unreal and imaginary results.'"

3. Said most countries of Asia are developing or wish to develop democratic institutions and "most of them are opposed to totalitarianism as represented either by Communism or Fascism."

4. "Given a period of peace, the inner weakness of any system will show themselves and there will be a tendency for each country to evolve on lines best suited to its existing conditions and genius," Nehru said.

Nehru deplored the creating of the 38th parallel in Korea by UN forces without first making a full effort at peaceful solution. He said this involved great risks of conflict on a wider scale, although he acknowledged to a questioner that these risks seemed less today than two weeks ago.

"At no time," Nehru said, "has India suggested that she would resign from her support of the UN resolution about North Korea's aggression. Had New China been admitted to the United Nations, a India would have urged both China and the Soviet to co-operate within the Security Council in finding a peaceful and just solution of the Korean problem."

Canada's CHEESE FESTIVAL
NOV. 15
ALBERTA IS taking a major part in National Cheese Month, which opened yesterday and will last until Nov. 15. Shown examining cheese samples at Kraft Cheese Ltd., Edmonton, are (left to right): Hon. Dr. W. W. Cross, Alberta minister of health; Cliff McIntosh, manager of the local plant; Hon. David Ure, Alberta minister of agriculture. Special displays of domestic and imported cheese will be shown in Edmonton stores during the month.

Cheese Industry Alberta Mainstay

By D. H. McCallum
Provincial Dairy Commissioner
Ebenzer Healy's farmstead cheese factory at Springbank in 1888 was the beginning of a branch of the Alberta dairy industry which plays an essential role in providing a market for whole milk in factory localities. A definite part of the community, these factories have repeatedly proven to be economic shock absorbers for dairy producers, and they will continue to serve the industry alongside the hunky butter business.

For many years these factories have been filling an important but inconspicuous role in supplementing city fluid milk shortages. In this role alone their existence has been increasingly appreciated. Alberta's factories manufacture sour Cheddar, a hard pressed variety of cheese that develops a characteristic nippy flavor when properly aged. Storage conditions must be controlled for temperature and humidity if a fine flavored cheese is to develop.

The process requires from seven to eight hours after the milk is received. This means that factories must be located in areas where the milk cow population is relatively dense and roads are sufficiently improved to assure early delivery regardless of weather conditions.

These factories which have been most successful over a period of years are located in the mixed farming areas around Edmonton and the irrigated sections of southern Alberta.

IMPROVEMENTS
Improvements in both these factory buildings and equipment have been evident in recent years. Stainless steel vats with mechanical agitators have not only lightened the work but contributed to higher quality cheese. Artificial refrigeration has been installed to properly control temperatures.

Several factories have installed whey separators, making possible the manufacture of whey butter and at the same time economies in operation that can be passed back to the producer in the form of higher prices for milk.

The real function of the cheese industry is best known to the consumer. It supplies the needs of Alberta tables, and in fact some is exported to British Columbia and Saskatchewan. In years of low production, Albertans have resorted to eating cheese which is available from other cheese producing provinces, notably Ontario.

Our increasing population is demanding more cheese for local consumption. It is to be hoped that Alberta cheese supply will continue to be sufficient for this purpose.

PEAK IN 1959
Since 1937 the grading of cheese has become a regular practice through the grading service of the Dominion department of agriculture. Improvement in quality reached a new peak in 1959 when Alberta factories turned out the highest percentage of top grade cheese since grading was instituted.

Fortunately for Canada, the British people are fond of our cheese and have agreed to take a considerably larger quantity in 1960. The present contract for approximately \$5,000,000 pounds will be filed in the province of Ontario and Quebec, and will provide a market for most of Canada's surplus milk this year. Alberta's present production will fill a need in Western Canada.

Negro Problem Aired By Court

WASHINGTON, Oct. 17—(AP)—The United States Supreme Court yesterday opened up a wide inference that states and cities may have to open up such publicly-owned enterprises as golf courses to Negroes. The high tribunal did not say Negroes should be given such rights. But it set aside a ruling of the Florida state court barring a Negro from unrestricted use of the Miami Springs Country Club golf course.

Not Even A Free Ride
CHICAGO — (UP)—A burglar carried a 200-pound steel safe from an elevated station, laboriously reached it open and found it filled with cancelled insurance.

U of A Professor Named Society Council Member

OTTAWA, Oct. 17—(CP)—Dr. J. K. W. Ferguson of the University of Toronto was elected president of the National Research Council's Council members named last night.

Council members named included: Dr. H. B. Collier, University of Alberta; Dr. M. M. Hoffman, Dalhousie University; and Dr. L. R. Jacques, University of Saskatchewan.

Movie Pioneer Passes In U.S.

PHILADELPHIA, Oct. 17—(AP)—William Christy Cabanne, 62, pioneer motion picture director, died here Sunday. Cabanne was a director of the old Biograph Company, then headed by D. W. Griffith, and went west with the rest of the motion picture industry to direct Beverly Hills. Francis X. Bushman, Mae Marsh and other early players.

Bible Reading Ok'd By Court

TRENTON, N.J., Oct. 17—(AP)—A New Jersey law requiring the daily reading of the Bible in public schools was unanimously upheld yesterday by the state Supreme Court. The court ruled that the law does not conflict in any way with the first amendment to the U.S. constitution which provides for separation of church and state.

Eating Of Cheese Month Proclaimed

National Cheese Month Marks Campaign to Up Consumption

National Cheese Month is being held across Canada and the United States, starting yesterday and lasting until Nov. 15.

In Canada, the main purpose of this autumn event is to encourage Canadians to eat more cheese, a highly nutritious food that other countries have learned to appreciate much more extensively.

Canadians are not great cheese eaters, in comparison to European peoples, for instance.

Canada's 430 per capita consumption was 430 pounds, with cheddar alone being consumed at a 230 per capita rate. European per capita rate is 10 pounds and more.

PRODUCTION HIGH
Canadian production of cheeses, however, rates high. During the first eight months of 1960, 68,397,000 pounds of cheese were made in Canada, Alberta production during that time was 2,410,000 pounds. Latter figure shows a 24 per cent increase for Alberta over the same months in 1959.

Alberta will take a major part in the National Cheese Festival this year.

Cheese manufacturers are co-operating with Hon. David Ure, minister of agriculture, Hon. Dr. W. W. Cross, minister of health, H. McCallum, dairy commissioner, and other provincial officials in sponsoring the event.

QUEEN PICKED
Miss Donna Morris, Edmonton, has been picked as Queen of the Fall Cheese Fiesta.

Special displays of many varieties of domestic and imported cheeses will be shown in local stores.

Of the many brands of cheeses on display during the fiesta, several types originated in Europe but are now manufactured in Canada.

MANUFACTURE OF BLUE CHEESE
Very close relative of French Roquefort and Italian Gorgonzola, is now produced by Canadian firms.

DISCLOSURE TYPE EDAM
Dutch-type Edam and Gouda, Groyere Swiss-processed cheese, Camembert, and Louis Rigny Roquefort.

AWARD WAS QUITE A BLOW

WASHINGTON, Oct. 17—(AP)—Joseph Wasiluk, 30-year-old lair operator of Waterbury, Conn., today won the \$1,000 grand prize in the 12th annual \$10,000 newspaper national snapshot awards. His entry also won the Class-B first prize.

The winning picture snapped by remote control shows Wasiluk blowing smoke rings for his infant daughter.

Building Falls, None Injured

MONTREAL, Oct. 17—(CP)—The side wall and roof of a three-story brick building in Montreal's East End collapsed yesterday. No one was injured. Five women and a child were in the two upper stories of the building when housed 14 apartments. All except Mrs. Roland Proulx escaped by the back stairs. She landed on a heap of debris two stories below but was not hurt.

Three Baptists Jailed In East

VAL D'OR, Que., Oct. 17—(CP)—Three more Regular Baptists yesterday were sentenced to two-month jail terms and fined \$40 and costs when found guilty of illegally holding adult meetings. Sentenced were Helen Hall, 19, of Hamilton, and Maurice Bolland and Ellen Yeak, both of Normande, Que.

Technically speaking, a pruned variety of plum which dries without spilling.

A horsepower represents the power required to lift 3,300 pounds one foot in one minute, or 550 pounds one foot in one second. The Jains, an Indian sect, begin more than a million, began about 500 B.C., in opposition to Buddhism.

By DICK BEDDOES

THE ESKIMO PROBLEM
Ever since the foot football was revived here two years ago this writer's advice on the game has been available to all and sundry. But up till now football players and coaches have shown splendid self-control in taking advantage of this opportunity.

To speak plainly, nobody connected with football here or anywhere else has ever asked me anything, with the exception of a gatekeeper at Clarke Stadium who once asked me to move along. That was because I am on the free list to all gridiron games, and the Eskimos naturally prefer to close the door to free riders, in order to make room for the 8,000 paying customers.

My help in solving the problems of the game is still unutilized, even in those times when the Eskimos have a win.

However, Anna Stukus, who retired from the peaceful profession of sports writing to take on the good, miserable, nerve-wracking job as Edmonton coach, is constantly sought out for information.

Right now he is attempting to answer the query, "What is wrong with the Eskimos?" a question which is asked with varying degrees of heat, depending on how much cash the interrogator has lost in wagers on the club.

His answer today, after giving his players a confidential talk last night, is: "We had a helluva lot of trouble, especially after dropping two close ones to Regina. But I think the air is cleared now."

Stukus confirmed that he couldn't put his finger on what impeded the Eskimos here in their last five games. But he speculated that they haven't given a unified effort in recent weeks, even going down one game and half a guy going in for a concussion.

And that last one, when in a league where a club like Winnipeg, for example, has an "all-out" attitude.

SAME BUNCH

Before the season started, "I thought we would hit our peak midway through the season. But we apparently reached it sooner. So now we were going back to the beginning, checking our plays to amaze us again."

Big Stukus pointed out that he will have the same bunch of guys who won six of their eight games. That is, with the exception of some injuries, he has the same.

Electing Lindy Berry captain might shake Eskimos out of the doldrums. At least it will give the personnel a confidence in his own field generalship.

Myself, I have no ready-made solution to the Eskimo decline. Also, I have very few bucks left after making several investments on the Eskimos in their recent escapades with Winnipeg, Regina and Calgary.

Mailly, Innis With Brandon

BRANDON, Man. Oct. 17—(CP)—

Brandon, West Kings and Western University, that Leo Mailly of Trail, B.C., and Bill Innis, who played last season with Moose Jaw in the Western Canada Junior Hockey League, will be the two imports acquired by the club this season.

U of A Professor Named Society Council Member

OTTAWA, Oct. 17—(CP)—Dr. J. K. W. Ferguson, of the University of Toronto, was elected president of the Canadian Psychological Society yesterday at its 14th annual meeting at the University of Ottawa.

He succeeds Dr. E. Gordon Young of the National Research Council's Psychology branch at Halifax.

Council members named Dr. H. B. Collier, University of Alberta, Dr. M. M. Hoffman, Dalhousie University, and Dr. J. K. W. Ferguson.

Special displays of many varieties of domestic and imported cheese will be shown in local stores.

Of the many brands of cheese available in the market, the most popular types originated in Europe and are now manufactured in Canada.

Manufacture of blue cheese, very rare relative of French Roquefort and Italian Gorgonzola, is now produced by Canadian firms.

Displays will also include Dutch, Belgian and Swiss cheeses, Gruyere and Emmentaler, and other varieties.

Through generosity of local sportsman Vic Horner, the club has been offered a large truck motor for the tow, thus cutting down the expense.

A committee was named to determine cost of building the tow. Election of officers resulted in Jim Greer succeeding Bill Evans as club president.

Other officers elected were: Bruce Allcock, vice-president; John Wood, secretary; Patsy Strange, treasurer; Bill Evans, hill captain and chief instructor; Don Hamley, social convener.

Doug Lemmon, publicity; Louise Sloan, club secretary; (Indies); Steve Sloan, (men); Allan Manning, junior cabin chairman and Guy Lafreniere, junior hill captain.

Club members will form work parties to improve cabin facilities. Work party will meet every Sunday at 1:30 p.m. and will start at 1:30 p.m.

Several ski films were run off to wind up the meeting.

Don't be too surprised if you meet Rimstad for the next few weeks and he'll be referring to junior hockey players.

Peg Wins 20-19 Thriller As Jacobs Fires TD Pass

WINNIPEG, Oct. 17—(CP)—

A third-down touchdown pass 20-19 Indian Jack Jacobs to rookie and Keith Pearce gave Winnipeg Blue Bombers a 20-19 victory over Saskatchewan Roughriders in the last two minutes of play in a Western Football Union game last night.

Victory before more than 8,000 fans meant little to Bombers, who already have clinched first place. It was thought they might have lost the services of import tackle Buddy Tinsley, but hospital officials said the big lineman had no fracture from a leg injury suffered on the field.

For Riders, it means they are still down two points to Edmonton Eskimos, with each having one game left.

Second-place team will have the benefit of the home game in the sudden-death semi-final to see which team Bombers for the western title.

In last night's dramatic finish, little George McPhail set up the play for the winning touchdown.

After Riders had scored a conversion, McPhail returned the kickoff, playing inside, and downed the linebacker and gathered in the ball from a host of rider players on his 28.

Two pass attempts after Jacobs clicked to Pearce at the goal line.

QUEEN PICKED
Miss Donna Morris, Edmonton, has been picked as Queen of the Fall Cheese Festival.

Special displays of many varieties of domestic and imported cheese will be shown in local stores.

Goldstick Is 13th Man
Raslin's promoter Al Oeming has added an additional member to his cast of 12, 10 rasters and two referees, for the battle royal at the Stock Pavilion tonight.

(Number 13 will be Cecil (Tiger) Goldstick, who draws the duty of patrolling the ring apron.

Goldstick, Goldstick and his trusty spot watch, will have the chore of timing the absence of the stars from the ring. If they are out more than 20 seconds he will take action and they will be banned from the festivities.

Tonight's battling starts at 8:30 o'clock.

Snooker King Beats Nugent
Canadian snooker champion George Crotter, 49, won his "title" yesterday at the Gold Dust Casino, by defeating the five o'clock champion, who draws the duty of patrolling the ring apron.

Playing in the afternoon, Crotter had one break of 60. Nugent's top run was 45 points. The champion snookered the crowd with a great variety of trick shots after the game.

Crotter will meet Frank Lacey of Edmonton today as the series continues. Games start at 2:00 and 8:30 o'clock.

Community Leagues Meet
The Federation of Community Leagues will meet in the Recreation building on October 24 at 8 p.m. Any league desiring to enter the league can obtain information from the athletic office of the Recreation Commission.

Lakers Ink White
MINNEAPOLIS, Oct. 17—(AP)—Sammy White, former Great Lakes and University of Washington star, was signed yesterday by Minneapolis Lakers professional basketball team.

Quakers to Fight CAHA

Saskatoon Quakers mean to fight the Canadian Amateur Hockey Association suspension ruling against their use of defenceman Larry Zeidel and Bill Heindl, even if it means making an issue of it in the civil courts.

At the same time they have no intention of handing over \$2,000 apiece for the rights to the players, for whom the eastern teams that employed them last season will settle.

This was learned last night, via long distance telephone, from Riley Mullen, Quaker coach-manager and former Flyer mentor.

Mr. Mullen, it might be noted, was running quite a temperature before he got through stating the case for the defendant—in this instance the Quakers.

"The way we look at it every man has a right to earn an honest living as he sees fit," Mullen opened. "As far back as last spring both Zeidel and Heindl told the clubs they played with last season that they would not be back."

"Heindl has been in Saskatoon since June. He's working here, has built a home and wants to stay down."

"Frankly, Zeidel hopes to play hockey in the National League someday. What's more he'll make it. So we aren't counting on him being around forever."

"But for now he likes the way things are going in Saskatoon. We like him. We mean to go on using him, Canadian Amateur Hockey Association, or no Canadian Amateur Hockey Association."

The Quaker mentor, who can be as stubborn as they come on occasions, directed some barbed remarks towards Heindl's old club, the Sherbrooke Saints, and Quebec Aces, who asked Zeidel to a regular pay-check last season.

"They have no right to put a tag on these players," he fumed. "And anyone who would pay a dime for a player's release under such circumstances would be nuts."

To a suggestion that Quakers might be doing hockey harm by taking the Heindl-Zeidel matter to court he replied:

"I don't think so. We feel we'd be doing hockey a favor by exposing all this silliness of players having to go where they're told."

It would be a far better arrangement for all teams if the players were available on an open market.

Did he think this might lead to over-bidding for their services?

"Not at all. A team is pretty well governed by what it can afford to pay anyway. If a player makes too much in the way of salary, more than a team could afford to pay, they'd just have to forget about him."

Getting back to Heindl and Zeidel Mullen said: "We sold Saskatoon Quakers fans on the idea that we were going to have the services of these two players. We were session tickets on that understanding."

"We aren't going back on the bargain now."

As evidence that the Quaker executive isn't missing a trick in its determination to take the matter to civil court, if necessary, Mullen who acts as their coach reminded:

"Look what happened to ball in the Gardella case. It's rather than test their reserve clause regulation."

Neither was Mr. Mullen as happy over a report that Frank Currie, manager of Edmonton Flyers, was anything but sympathetic toward Quakers' stand, of course, is very hard to do via long distance telephone.

Currie was quoted in Edmonton yesterday to the effect that "Quakers know the regulations when it comes to signing players. It's in the book."

"Just ask Currie how about Andy Clovechok and 'Pug' Young," Mullen snapped back.

"And while you're at it, ask him how much he paid Sherbrooke for Ray Barry's release." The voice of the man who was suspended as Flyer manager by Currie dripped scorn. "Editor's note: Currie, of course, is very hard to do via long distance telephone."

In the meantime Quakers play host to Calgary Stampedeers tonight. They're more Heindl and Zeidel will be in the Saskatoon line-up.

Or so the man said.

Riddell Meets Elwood On EBCC Fight Card

Chunky Gordon Riddell will headline the Edmonton Boys Boxing Club's Oct. 27 fight card at the Stock Pavilion. The 156-pound division champion will clash with Tommy Elwood, a 158-pounder from Winnipeg.

Semi-main event will be fought by young Elwood. Tamey's card brings together Buletin Golden Glover Buddy McEldon and Bobby Shivers from Vancouver. They are feather-weight.

Both the main and semi-main events will consist of five two-minute rounds.

Balance of the eight-bout card will be announced later.

Youth Comes Across PITCHBURGH, Mass. — (UP) —

Pitchburg children sacrificed juvenile luxuries for a new library. The Youth Library was built by youngsters who saved 1,000,000 pennies in a few months by baby-sitting and mowing lawns while foraging for bubble gum and comic books.

U.S. MUSCYLEMEN BEAT EGYPT, RUSSIANS

PARIS, Oct. 17 (AP)—United States won the 1950 International Weight Lifting Championship yesterday by defeating champion Egypt and a powerful Russian team.

John Davis of Brooklyn, hailed as the strongest man in the world, clinched the title for the United States by easily defeating Russia's Yakov Koutsenko in the heavyweight title standings for the three-day event. United States 18, Egypt 16, Russia 16, Iran 15, Britain 2.

Brooklyn, Oct. 17 — (AP) —

Brooklyn Dodgers said yesterday they have acquired contracts for four players from their minor league farm clubs.

They are Bill Sherman of Elmira, Don Thompson of Montreal, Dick Williams and Ray Moore of Fort Worth.

Britain Makes War Statement

NEW YORK, Oct. 17.—(AP)—Kenneth Young, British minister of state, said last night Russia is not likely to be deliberately planning a world war. He added, however, the Communist plot "from the risk of blundering into war unintentionally." Younger made his declaration in an address to the New York State Society of Newspaper Editors.

Toronto Lifts Meeting Ban

TORONTO, Oct. 17.—(CP)—City council yesterday repealed a by-law that had banned religious meetings in city parks for more than 40 years. The original ban was imposed after fights between rival religious groups. The meetings will be allowed only under permit from Parks Commissioner Walter Love.

Light Set-Up Bright In East

TORONTO, Oct. 17.—(CP)—Robert Saunders, chairman of the Ontario Hydro Commission, said last night that the province should be free of power blackout this year. The commission also hopes to avoid restrictions on such things as store lighting. Mr. Saunders said in an address over a local radio station.

Winnipeg Girls Indicate Great Musical Promise

Two young Winnipeg girls furnished living proof of the quality of Canada's younger musical artists at their vocal and piano recital in Masonic Temple last night.

Neither Belva Borditsky, soprano, or Sidney Elizabeth Young, pianist, are ready yet to take rank as first-class concert artists. But they soon will be if they fulfill the promise shown in their concert last night.

The two were selected by the Canadian Federation of Teachers' Union for its first western tour and presented here under the co-sponsorship of the Edmonton Women's Musical Club.

Miss Borditsky has a full rich soprano which she is already capable of exploiting with great fervor and in particularly striking in song-calling for intense vocal expression, as in Schubert's "Ungeheuer."

POISE SHOWN
Sidney Young, only 15, already possesses fine poise and showed a gift for sensitive interpretation in "Arabesque, No. 1" by Debussy.

Both artists have their faults. Miss Borditsky seems to have too pronounced a vibrato and lacks full control over her powerful voice. Miss Young was unimpressive in piano selections calling for the full resources of her instrument and her technique seemed a little mechanical.

But none of these observed defects is so serious that it can be overcome by experience. Program of both singer and pianist ranged from Eighteenth century music by Haydn, Scarlatti and Bach to the relative modernism of Khachaturian and Varian. Miss Borditsky handled all types of music well. But Sidney Young was most at ease in works by Chopin, Brahms and Debussy. —M. S.

China Cries Spies

LONDON, Oct. 17.—(AP)—Communist China says it has arrested 28,000 spies for the United States and Chiang Kai-shek's Nationalist government since January, 1948. The charge was made in a broadcast in connection with the opening of a photo exhibit in Peiping.

SHOPPING GUIDE

Merry Xmas Influence Obvious in Shops Now

By Bea Thrifty

Any old day now Vaughn Munro's "Ghost Riders in the Sky" will stampede out of the picture and "White Christmas" will be the new wave.

I'm all for the merry Yuletide season... but I like it fresh 'n' crisp and new... not hushed over, beat to death with songs and sales months ahead of schedule.

Which all adds up to a preliminary about Christmas displays appearing in local shops. If the "do your Christmas shopping early" routine has a sensible effect on the likes of you... now is the time my good woman to come to blows with that long, expensive-sounding list.

But before I get carried away I must toss a few cankerous words your way 'bout a Daniel Boone hat for the small fry.

Make-believe games of the wild, will west are popular past-times for the pop-gun set and they'll fit into the picture perfectly with the coonskin Daniel Boone cap which sells here for \$2.98.

Made of coon skin with a fat, furry tail draped rakishly over one ear, the hats are sure-fire pleasers for the little man of the house.

Edmonton is at last capitalizing on the western theme in the way of this and that's... at least an eastern manufacturing firm is capitalizing on Edmonton's sudden awareness of the west where men are men and the soil is rich... wild, wild.

Glasses, tall-in-the-hand glasses are patterned with saddles, boots, ranch-brands, bow-legged cow-pokes, sage-brush and ten-gallon hats.

And all for a nominal fee. Least expensive set of patterned glasses sells for \$3.98 for eight. Others range from \$4.98 per set of 8 to a maximum \$14.98 price which included a smartly western-styled wooden rack for the glasses.

Tea cups, pretty in pastels, delicate in age-old pattern, inexpensive in price—\$4.95 a set... are round and about for a 74c pre-Christmas sale.

Others are selling at \$1.00, \$1.30 and \$1.75.

With more practical patter I say "do invest in a 36c roll of aluminum foil for a dozen or more housewives for storing food, for lining broiler or cookie pans, for oven-catching juice from fruit pies, for preserving fruit cake in the like... you'll find nothing more suitable.

It's a 36c expenditure which pays one hundredfold in saved time, energy... and wastage.

Hob-nobbing with goblins and witches is forecast for Halloween hijinks... and 36c will buy a crepe paper costume book for the young 'uns.

Book contains material and directions of numerous different-type costumes... you see what you think about the whole affair.

Cap Conceals Pin-Up Curls

Indivisible... everything that you date the plastic age an enormous... of hair that has turned the... of hair into a little volume that... of hair into a little volume that...

Research shows that decay is caused by mouth acids which are either worn after meals. When you brush your teeth with Colgate's right after eating, you help remove mouth acids before they can harm enamel.

2 Years' research by LEADING UNIVERSITIES proves that test groups brushing teeth right after eating with Colgate Dental Cream showed amazing reduction in tooth decay!

Under the direction of eminent dental authorities, one group of college men and women always brushed their teeth with Colgate Dental Cream right after eating... while another group followed their usual dental care. The average of the group using Colgate's as directed, and using Colgate's exclusively, was a startling reduction in the number of new cavities—far less tooth decay. The other group developed new cavities at a much higher rate.

HELP YOUR CHILDREN AVOID TOOTH DECAY! Insist that your children brush their teeth right after eating with Colgate Dental Cream. They'll love Colgate's delicious double-minty flavor, so it's easy to get them used to Colgate's correctly.

ALWAYS USE COLGATE DENTAL CREAM right after eating HELP PREVENT TOOTH DECAY

Bill Lacey, 19, who has been a member of the Edmonton Youth League, is shown here with a book.

WHY GROW OLD Nine Day Diet for Men Means Better Health

By Josephine Lowman

Everyone looks older when overweight. Everyone looks less attractive and every overweight individual experiences lowered energy, if not lowered ego.

For years men have gone along, fussy free, with their pounds and bag-windings, while they harassed their women to regain their girlish figure.

Complete "Nine-Day Diet for Men" send a stamped, addressed envelope with your request for it to Josephine Lowman in care of this newspaper.

Do You Know? Q—Did the dollar sign result from a combination of U.S. letters standing for United States? A—Among coin collectors, it has been taken for granted that the sign originated from a Mexican abbreviation of P for pesos or piastres. This resulted through dropping the S over the P, or combining them. There is evidence that the dollar sign was used long before there was a United States.

Breakfast One cup of orange juice A generous helping of oatmeal (two teaspoons of sugar and a half cup of whole milk) Two pieces of toast

Lunch A fair helping of lamb roast or beef roast (not fat or gravy). Green salad without salad oil (use lemon juice) One baked potato

One generous piece of lean meat roast or steak One-half cup of squash One-half cup of string beans One orange or apple One cup of tomato juice before retiring

If you would like to have my

BRIDGE

Bill Goes Down As Larceny Lou Gloats

By OSWALD JACOBY

"I'll bet you two go around carrying at least ten rabbits feet and half a dozen horseshoes," said Bill, the bold bad brother. "Why, that double you made is the worst I've seen or even heard of. If I had just ruffled with the ten of clubs and pulled trump I would have made my contract."

"I love that!" said Larceny Lou. "If you had wheels you'd be an omnibus."

Actually, there were a great many life to the hand. If Bill had not been notorious for his great overalls Larceny Lou would not have doubted his double really was a bad one. Then as Bill pointed out, if he had known exactly where the cards were, he would have made the hand. However, Bill did not point out that he should only have gone down one trick, not the two he actually went down.

DOROTHY DIX SAYS

Advised to Teach Girls Self Control; Respect

DEAR MISS DIX: I am rearing a family of four girls whose ages run from 8 to 18, and I often wonder if I am not neglecting some important part of their training.

Would you mind telling me what you think parents of growing daughters should teach them?

ANSWER: By the time a girl is 18 she is virtually on her own now, and whether she stands or falls, whether she wrecks her life or saves it, depends upon the principles that her mother has been into her.

All of the chattering that a mother can do has to be done while her little daughter is in the cradle. All of the protection a mother can give her daughter is to teach her how to protect herself.

Teach her to keep clean, physically and spiritually, and to value her body.

Every mother should teach her daughter as soon as she is able to understand anything at all to know herself and to guard against her own weaknesses. She should teach her especially to guard herself against her own passions.

Teach a girl to guard herself against herself and you have done all that can be done to protect her.

Empty your handbag once a week. Then clean and brush the dust from the folds of the lining and pockets. Keep cosmetics, comb, etc., in a separate cosmetic bag. This will save time when you go to the theatre, and your bag will stay cleaner.

Uncle Wiggily's Bedtime Story

The Lady Mouse teacher of Hol-low Tree School and her pupils were so excited while talking about the great frog race, that at first they did not hear the knocks on the door as I told you yesterday. But the knocks sounded again: "Tap! Tap! Tappity! Tappity! Tappity!"

"I wonder who is knocking at our door," said Miss Mouse. She was just fastening the green ribbon on her tail, after it had been flipped off when she was surprised, as I also told you in yesterday's story, "I wonder who is knocking?"

"I'll go and see who it is, if you please," said Buster.

The rabbit scout popped to the door, opened it and saw Hol-low Tree School's teacher, Uncle Wiggily, and his country cousin Mr. Jumper Hare. They both made low and polite bows to the Lady Mouse Teacher who waved her tail with the green ribbon on it. Uncle Wiggily and the country cousin rabbit from Green Tree Valley.

"I hope we are not too late, Miss Mouse," said Uncle Wiggily.

"Oh, no, not at all," squeaked the teacher. "If you were late for school I must excuse you since you are not my pupils. Though I am very glad to see you, Uncle Wiggily, and who is this strange rabbit?"

"Oh, excuse me," said Uncle Wiggily politely. "Miss Mouse, please permit me to introduce to you my country cousin Jumper Hare from Green Tree Valley."

"I am happy to meet you, Mr. Hare," said Miss Mouse.

"Likewise," said Cousin Jumper, which word, though not as polite as it should have been, at least indicated that the country rabbit was happy to see her.

"What have you in that basket, Mr. Hare?" asked Miss Mouse. All her pupils sat at their desks and listened to the talk. "Have you brought some lunch in the basket?"

"No, Miss Mouse," replied Cousin Jumper. "I have in this basket the champion backboard jumping green frog named Juggo. Look at him!"

"Cousin Jumper's backboard jumping frog is going to race with Bully and Bawly No Tail, who are here at school," said Uncle Wiggily. "It is time for the race, Miss Mouse!" I suppose Buster told you about it.

"Yes, he did, Uncle Wiggily. And as the children are so interested in the race, I shall close school now, though it is a bit early. Get ready for the frog race, boys and girls. All ready!" called Miss Mouse.

"Hurrah! Hurrah! Hurrah!" shouted the animal boys and girls as they rushed out of Hol-low Tree School. "All ready for the big frog race!"

What happened next I will tell you tomorrow if the roller skates will please stop taking the molasses cookies to make wheels for the canary bird's bicycle.

Horoscope

Kiddies Kicked

LEWISTON, Me.—(UP)—During a routine police raid, a score of civil operators each ordered one million from Austin Hills and each tendered a \$20 bill. Forewarned that they were coming, Hills handed each his change in dimes and nickels.

U.S. Planes May Assist Indo-China

SAIGON, Indo-China, Oct. 17.—(Reuters)—United States light bombers may be flown from Korea to Indo-China within the next 10 to 15 days to help French forces battle the northern Vietminh against the French army, French sources said today.

The planes would act as a stop-gap until the arrival of American military aid promised this week in Washington, French sources added.

The French air force in Indo-China has enough American-made planes from the Second World War to fly the bombers immediately.

A French mission, headed by Jean Lefebvre, minister for Associated States, and Gen. Alphonse Juin, military strategist, flew into Saigon today.

STUDY SITUATION
They will study the situation on the border with Communist China where the French are withdrawing under pressure from their fourth stronghold, Langson, 80 miles from Hanoi, the Tonkin capital.

Truck loads of Vietnamese Chinese civilians were moving down the mountain trails to safety in the Tonkin Delta 60 miles to the south, a French announcement said.

In the Tonkin Delta, French forces reported to be still fighting and mopping up guerrillas who had infiltrated.

Defenders of a French post near Thuan, a port in central Vietnam, fought off an assault by the Communist-led Vietminh.

Eastwood Group Re-Elects Nearly Entire Executive

All of last year's executive of the Eastwood Community League, with exception of vice-president Charlie Prisman, were returned to their posts at the general meeting held last night.

Prisman resigned and the position was left open.

The executive now comprises, president, A. D. B. Smith; vice-president, Roy Houghton; treasurer, Harold Lewis; building and grounds director, Jack Taylor.

Treasurer Lewis reported a good financial year for the league and several suggestions for the program of the coming year were offered.

It was decided that the league should sponsor hockey teams and other winter activities and should go all out on a drive for increased membership.

Final plans will be decided at the executive meeting to be held next week.

The bite of an insect called the Buffalo knot causes blindness in the north part of the African Gold Coast.

NEW BATTLESHIP, TOO

Soviet 'Gibraltar' in Baltic Bristles With Men and Guns

STOCKHOLM, Oct. 17.—(Reuters)—Details of Russia's "Gibraltar" in the Baltic and the new 25,000-ton battleship she is basing there have leaked over to Stockholm from a number of independent sources.

The Russian "Gibraltar" consists of the two Estonian islands of Dagoe and Oesel, lying off the Gulf of Riga. The reports now reaching here indicate the bays of these islands have been deepened, submarine pens blasted out in the rocks of their craggy coasts, military airfields laid down and barracks built.

The work has been carried out during the last two years by Russian "building commandos" working under the supervision of secret police officials.

With the work completed, Russia has begun to man her islands. This spring she began to ship over Red Army, navy and air force men from the mainland.

These islands serve not only as offensive bases against Finland, about 100 miles away, and Sweden, about 200 miles away, but also as guard posts for the sea approaches to Leningrad. Together with Russia's base at Porkkala, outside Helsinki in south Finland, the islands form a pincer in the sea Baltic where the Russians could storm by a single stroke.

FINAL WINTER SUPPLIES to Yellowknife are en route this week. Here deckhands unbatten hatches to unload Yellowknife Expeditor as skims ice begins to form on Yellowknife Bay. Small English car is carried as deck cargo. Small cars are popular on short Yellowknife road system. Shipping operators now have fingers crossed, hope boats return safely to bases.

Announce Opening Date For New Freight Sheds

New CNR freight sheds in Edmonton costing \$1,000,000 will open early in December, the most modern mechanical loading equipment in Canada.

This was announced today by J. R. McMillan, recently-appointed vice-president of CNR Western region.

Mr. McMillan is making his first official inspection visit to Edmonton since his appointment.

A shortage of boxcars that has slowed down fall grain and coal movements is "improving," Mr. McMillan said.

LATE HARVEST
The shortage was caused largely by a late harvest in Manitoba. He explained that harvesting is usually 10 days ahead of Saskatchewan in Manitoba.

This year, rain and snow delayed harvesting in Manitoba, bringing grain movements on at the same time as Saskatchewan.

The western superintendent said that business on the railway in western Canada is very good. Many new boxcars are going into service and some new locomotive power.

NO LAYOFFS
Opening of the oil pipeline to Regina will cause a shifting of oil tank cars but there will be no layoffs in Edmonton as a result.

Mr. McMillan is inspecting new spur track and railway signal installations at Calder and North Edmonton and also the new freight sheds.

He planned to call on Provincial Government, Chamber of Commerce and civic officials here today following conferences with general superintendent J. F. Cooper of Edmonton.

TUSCALOOSA, Ala.—(UPI)—Mr. and Mrs. N. L. House exhibited a home-grown dinkie at their curb market here measuring one foot across and three feet in circumference.

Edmonton Farmer To Bypass Show

Weather-Affected Samples, Hamper Grain Show Entries

Only man to operate a farm within the city limits, William Miller, will pass up exhibiting his grain at the Toronto Royal Winter Fair this year for the first time in many years.

Several other potential exhibitors will not compete at the fair this year, chiefly as a result of poor weather which adversely affected grain samples, J. E. Hirdell, superintendent of crop improvement for Alberta said today.

R. J. Alsop, Alberta's latest wheat king who won the title in 1942, reported to provincial agriculture authorities that grain grown on his Red Deer farm will not be of sufficiently high quality to exhibit this year.

IN NINE CLASSES
Another veteran exhibitor, Thomas E. Brown of Castles, will compete only in nine classes, considerably less than the number which he usually contests at the Toronto Fair.

Among samples which Mr. Brown will send to the Toronto Fair, wheat, barley, spring wheat, soft wheat, barley, rye and oats.

Last year's oats and barley king, John P. Kilak of Hilly Hill, will again compete in the oats and barley competition, Tom Cuffie of Cuffie, a former Altona king, will enter samples of alfalfa and red clover.

PRIZE POTATOS
Tommy Gowers, of Rainier, last year's champion of prize potatoes in the Toronto Royal winter fair, will again enter catted ones in the potato classes.

With several new exhibitors slated to send their first samples to the fair, the competition is expected to be keen.

U.S. Move Curbs Installment Buying
WASHINGTON, Oct. 17.—(AP)—New government curbs made it harder to buy autos and many household appliances on installment terms today.

Effective Sunday midnight, the Federal Reserve Board required bigger down payments for appliances, a shorter payoff time for new and used cars.

Animal experts say polar bears suffer less from extreme heat than do the animals—tigers, leopards and lions.

BORDEN PARK 'CAT' FACED WITH DEATH

The half-grown, spotted cougar now in Borden Park is facing under conditions as grim as any of his kind.

Paula Samson, a 17-year-old girl, who has been a foster mother to the cougar, said today that she has been advised to let the animal be put to death.

The animal, which was given to the city by a hunter, is now being kept in a cage at Borden Park.

Paula said that she has been advised to let the animal be put to death because it is too dangerous to keep.

Chest Drive Continues Until Objective Reached

Community Chest donation drive dropped off somewhat yesterday, with only \$3,518 being turned in.

This figure represents a drop from the \$4,000 goal set for the day.

There were only three major contributions made today to the drive.

The Army and Navy department stores donated \$200 and the Edmonton Bulletin and Sun donated \$100 each.

WORK GOES ON
Although the original time slated for the Chest campaign expired yesterday, many contributors will continue to send in their donations.

Contributors are urged to keep sending in their donations until the objective is reached.

U.K. Duty For Squadron 421

OTTAWA, Oct. 17.—(CP)—Canada's Royal Canadian Mounted Police Squadron 421, based at Chatham, N.B., will move to the United Kingdom early next year for an operational training tour of several months.

Police air and ground crews, commanded by Squadron Leader R. T. P. Davidson, DFC, of Vancouver, will make the shift, present plans call for it to leave for Vancouver in late October and be present in the United Kingdom with fighting units, including the same type of training purposes.

More than half the members of the squadron, however, have not yet been selected and there is still about 60 percent of the training course to be completed.

Receipts from both of these sources have been leading steadily towards the target.

Far East Sources See Strong Determination

TOKYO, Oct. 17.—(AP)—Basic emphasis of the Truman-MacArthur conference at Wake Island was on building up American military strength and determination in the Far East, informed sources said today.

They said there was no discussion to pull American troops out of Korea for European duty.

The president and his Far East command conference agreed that American troops should be withdrawn from Korea as quickly as possible. But the reason is to give the Koreans an opportunity to handle their own affairs with a minimum of foreign intervention, the informant said.

Naval and air forces also will be maintained at considerably greater strength in the Far East than before hostilities began.

Informants said MacArthur had ample opportunity and took time to express his views on the need for a strong Asiatic policy, backed by powerful military forces, for the containment of Communism. President Truman expressed agreement with this position and there were no disagreements, the source said.

Formosa and Indo-China were discussed during the broad survey of Oriental problems but in general rather than specific terms. Communism China was treated the same way in MacArthur's outline of military problems.

MacArthur emphasized the importance said that the victory in Korea would be lost if through reduced Allied power, the Com-

Canadian Navy's Role Versatile

OTTAWA, Oct. 17.—(CP)—Canadian destroyers have been engaged in many-sided roles with the United Nations naval forces in Korean waters.

In the 24 months they have been attached to the UN forces, the destroyers—Chatham, Albatross and Albatross—have not exhausted any with any enemy war craft. However, the Albatrosses first shot in a chase to capture a pair of North Korean junks fleeing from the Inchon landing area.

The more versatile tasks of the 547 men in the flotilla—reconnaissance and blockade patrol—have been carried out, respectively, along the west coast of Korea and around supply bases in Japan and the South Korean port of Pusan.

LANDING SUPPORT
On a third island, the Albatross destroyed a North Korean radio reporting station and then landed a heavily-armed party to blow up any equipment that might have been carried over there. The sailors tried to find any banders around the station.

Next major assignment for the destroyers was in helping to provide support and protection for the UN landings at Incheon. The found them in action together in the first time since their arrival in the war theatre late in June, in August. With a Royal Navy frigate, the Cayuga thrust into an enemy-held harbor and shot up the place.

HEAVY DAMAGE
By the time both vessels withdrew without damage, vessels in the harbor had been badly damaged or sunk, port installations were shattered, and cranes, warehouses, railway rolling stock and several large buildings were either destroyed or heavily damaged.

In the next few weeks, the smaller Sioux—2,500 tons—carried out two bombardments of shore installations under Cmdr. Paul J. Taylor of Victoria, and engaged in independent patrol and blockade duties.

The Albatross, skippered by Cmdr. Robert P. Weiland of Mo. Creary, Man, and Victoria, co-operated with South Korean forces in the capture of two islands.

The Albatross, of the same class as the Cayuga, beat up enemy installations to such an extent that a landing party from the destroyer and a subsequent South Korean

squadron suffered no casualties. She provided fire support for a similar South Korean landing on the second island, neutralizing within range of Inchon shore guns for the task.

This force had varied responsibilities, including close blockade and extended cover for the islands of the invasion armada, and the provision of anti-submarine buffer force if required.

A mission landed from the Albatross helped South Korean marines in the capture of the island of Ungang after a bombardment by the destroyer.

About the same time, Albatross demolition parties destroyed five mines in the approaches to Korean port and the Sioux used gunfire to support the landing operation.

In the last week, the destroyers have engaged in actions off the coast and west coasts of Korea.

Roosevelt Son Urges United Israel Help

WINNIPEG, Oct. 17 (CP)—Franklin D. Roosevelt, Jr., third son of the late president of the United States, said last night both Jews and non-Jews should support Israel in solving its present problems.

Mr. Roosevelt was guest speaker at a dinner meeting of the Youth Aliyah Committee of Winnipeg. Youth Aliyah was formed during the Second World War to care for orphans of Jewish families in Europe.

On aiding Israel, he said, they would be taking out an insurance policy against "one more act of aggression" Israel had to expect as so set a pattern to the Middle East.

It must provide the answer to Communism in a backward part of the world. The population of Israel had nearly doubled in the last four or five years but the country had not scratched the surface in solving its problems.

There were still many Jews in North Africa and Western Europe who would never get out from behind the Iron Curtain because of emigration restrictions imposed by Russia and her satellites.

Mr. Roosevelt said the people of Israel must build up their industry. If they can do that the country will become the Switzerland of the Middle East.

Most Prizes At U's Won By Veterans

HALIFAX, (CP)—Nearly 60 per cent of all prizes awarded at the 25th Scotia universities all-star football game were won by veterans. Dr. H. L. Scammell, registrar of Dalhousie University, reported here.

But what was more important, said Dr. Scammell, was that "the university received a large number of mature students of high intelligence and able to assist in university training. The student veterans have had a great effect in giving leadership to the non-veteran students."

D. A. Baxter, superintendent of "Exercises" training for the military, said 6,194 veterans were registered from 1945 to 1950. This did not include the current term. Nearly half of these—3,000—had enrolled at Dalhousie.

The professors seemed to be the first choice of the veterans—engineering, medicine, dentistry and law. Arts and sciences were next, but then such studies as commerce, agriculture, co-operative leadership, journalism and pharmacy.

BOOK WEEK TO WEAN YOUTH FROM COMICS

Advent of young Canada Book Week, backed by an impressive roster of national and international organizations, was announced last night at a regular Edmonton Library board meeting.

The board approved an allocation of funds to Miss Grace McDonald of the local library and a member of the YCWB to help promote interest in good books for children.

The book week, scheduled for first time in 1948, will run from November 11 to 13 this year.

Its sponsors hope by means of book "fairs," special programs, national and local publicity to promote interest among youngsters in such stories as "Rifles the Sea-faring Rat" and "Mistif, the Story of a Boy who was not Afraid."

They were away from comic books. Recommended by Canadian Association of Children's Librarians was a list of 65 stories of adventure, mystery, historical fiction, styled for the youthful reader.

Mr. Longman reviewed the conference of the International Federation of Agricultural Producers, which the speaker attended in Stockholm last night.

President Don Clouston said that the club has not been officially approached by anyone in connection with the idea but the members have already set up a committee to look into the matter further.

Mr. Longman emphasized, in particular, suggestions advanced in Stockholm for equalization of distribution of farm surpluses on an international basis.

The speaker said that agricultural bodies throughout the world, made up of cadres from western squadrons, joined the international drill contact last summer at Des Moines, Iowa, in competition with American groups from all over the United States.

In elections yesterday, Harry Francis, of Calgary, was named chairman, succeeding Mr. Duggan. Vice-chairmen are Harold Timmins, Calgary, and Gordon Wynn, Edmonton.

The 200 Athabasca squadron was named winner of the Guthrie Shield for proficiency.

tural problems of the world can be solved only through the active collaboration of various agricultural bodies throughout the world.

PROUD OF SHOWING OF Alberta air cadets are AVM C. R. Dunlap, AOC North West Air Command, M. Barker Bates, Hamilton, president of Canadian Air Cadet League, and Eric M. Duggan, Edmonton, Alberta, chairman, chatting during convention here of Alberta cadets' committee. Alberta is expected to top Canada in increase in numbers during present membership drive, president stated.

Leadership In Air Cadets Looms For Alberta League

PILOT KNOWS WHAT'S WAIT

TORONTO, Oct. 17 (CP)—Mr. Joseph F. H. Brierley yesterday awarded a post-war award to a pilot who had been damaged by a collision of the boat and an aircraft. The boat was owned by Harry T. Tiley and driven by his son-in-law, J. Moffat.

When it collided with a float plane owned by Georgian Bay Airways and piloted by J. M. Watt.

Yacht Club Sees Civil Defence Role

ST. JOHN'S, Nfld. (CP)—The Avalon Yacht Club of St. John's is investigating the possibility of forming a power boat squadron that could be used as a civil defence unit in the case of a national emergency.

The squadron would be voluntary and the members would supply their own boats and services, but at any remuneration.

President Don Clouston said that the club has not been officially approached by anyone in connection with the idea but the members have already set up a committee to look into the matter further.

Mr. Longman emphasized, in particular, suggestions advanced in Stockholm for equalization of distribution of farm surpluses on an international basis.

WIFE BURNED THIS GUY UP

TORONTO, Oct. 17 (CP)—A 25-year-old racing driver was convicted yesterday of burning down his father-in-law's house because his wife left him and went back to her father. A jury took 25 minutes to find David F. Harris of Laurentville guilty of arson.

"I have been highly impressed with the enthusiasm shown here in Alberta and with the high calibre of your cadets," he said in an interview. "I imagine, at least in part, it's due to the all-embracing of the west."

At the meeting of the Alberta provincial committee in 418 Calgary squadron quarters, delegates were told Alberta, with 1,500 air cadets, is already up 50 per cent above the provincial normal quota.

A 50 per cent increase is the goal aimed at by the national expansion drive started September 13.

As a result of current drive, membership is expected to rise to 2,000 by the end of the year, delegates were told.

FOUR OVER 1949

Alberta now has 50 squadrons, the highest per capita figure in Canada, provincial chairman Eric M. Duggan of Edmonton, told the convention. The number of squadrons is up four from last year.

A total of 742 cadets attended camp at Glend, Man., he reported, close to half the total from the four western provinces.

He pulled tribute to the drill squad, made up of cadres from western squadrons, joined the international drill contact last summer at Des Moines, Iowa, in competition with American groups from all over the United States.

In elections yesterday, Harry Francis, of Calgary, was named chairman, succeeding Mr. Duggan. Vice-chairmen are Harold Timmins, Calgary, and Gordon Wynn, Edmonton.

Canada Panning Export To Asia

OTTAWA, Oct. 17.—(BUP)—Canada planned today to play a large role in the rehabilitation of Korea and become a major source of supply for Japan.

C. R. Galloway, area officer for Asia in the trade department, said Canada expected these developments despite the fact that its exports to Asia generally had fallen while imports from that part of the world increased.

During the first seven months of this year, Canadian exports to the principal trading countries of Asia were valued at \$64,510,000, compared with \$60,500,000 in the same period last year.

Termination of exports to Communist China, and India's dollar difficulties, were responsible for the cut.

OVER \$60 MILLIONS

Canadian imports, on the other hand, were worth \$60,450,000 in the January-July period of 1950, compared with \$63,531,000 in the same period last year.

The trade department reviewed the figures for Ceylon, China, Hong Kong, India, Indonesia, Japan, Malaya, Pakistan and The Philippines in an article signed by Galloway in its weekly organ, Foreign Trade.

"Canada is expected to assume increasing importance as a source of supply for essential raw materials required by Japan, and particularly for the rehabilitation of Korea," Galloway said.

"On the other hand, the market for Canadian flour in Ceylon is less certain, and the market for non-essential consumer goods in Hong Kong is falling."

FLLOUR SHIPMENTS

The trade department said flour shipments accounted for most of the increase in the past year in this country's exports to Ceylon, while exports of other products fell off.

Galloway said the high level of flour exports to Ceylon were unlikely to continue, and an improvement in exports of other products was not expected in the very near future.

Exports to China fell largely because of cut-backs in purchases of Canadian wheat and flour. The trade department said there was evidence that the Communist regime in China was taking over increasing control of foreign trade.

"Although there is evidence of interest in Canadian products, there is no clear indication of the government policy concerning dollar imports," Galloway said.

The drop in Canadian exports to India, Galloway said, was due chiefly to a drop in shipments of wheat and railway equipment.
